**Disability needs deserve better**

Barnet Council should help disabled people to lead fulfilling lives in their community, not increase social care charges and drop derogatory statements to be made about them.

**Barnet Council**

Barnet Council is planning to take a more confrontational approach in its discussions with residents over plans to increase social care charges. The council has already introduced new charges for services such as meals on wheels and home help, and is now considering further increases.

Councillor Rajput's Local Account

Councillor Rajput, Barnet Council's Cabinet Member for Adult Social Services, has been quoted as saying that Barnet needs to increase social care charges to make up for cuts in central government funding. However, the council has not consulted residents or decided on the level of the new charges.

What happens when you increase adult social care charges?

- **A single man suffering from multiple illnesses**
- **A woman with cancer**
- **A person with dementia**
- **A child with special educational needs**
- **A person with a learning disability**

**CADDSS** aims to achieve:

- Protest and challenge: to highlight the impacts of social care cuts and the pressure on people with disabilities
- **UPP**ORT: to people with disabilities, but even more so to people with disabilities
- **GA**IN **ST**: to people's organisations and voluntary sectors
- **POLICY**: to social services
- **PROTEST** and **CHALLENGE**: to social services
- **Leaving him on his own for too long**
- **Dead when I come home!**

Barnet Council should help disabled people to lead fulfilling lives in their community, not increase social care charges and drop derogatory statements to be made about them.
